Blaze King Industries-Walla Walla Washington
Valley Comfort Systems, Inc.-Penticton, B.C. Canada

Blaze King Industries of Walla Walla Washington and parent company Valley Comfort Systems, Inc. of Penticton, B.C. Canada, have approved, based on ITS/Warnock Hersey tests results, Selkirk DT5 Series Venting, brand name Direct Temp, to be used with Blaze King Direct Vent gas models Pegasus 9603 Rear Vent, Traditional 9603 Rear Vent and Pegasus 9603-1023 Rear Vent. ITS/Warnock Hersey tests deemed it acceptable to be used on the above listed units.

This provides for a winning combination for all hearth & fireplace professionals as it expands options to dealers when installing Blaze King direct vent appliances.
