Model DCC Double Wall Stove Pipe

Construction Features

Introduction

Model DCC Double Wall Stove Pipe

Model DCC is a premium quality system designed to provide better installing value for superior wood stove performance. Double Wall Stove Pipe allows for reduced clearance to combustible materials and longer life than common single wall connector pipe.

The Model DCC is listed to UL133 and IAC-S-641 with a 6" clearance on all diameters, and all configurations.

Model DCC Double Wall Stove Pipe

• Stainless Steel inner liner
• Air-insulated, double wall design
• Matte black finish – Stove Brite 1990 Satin Black
• Easy to install and inspect screw-joint assembly
• Dry-rinse design to prevent creosote leakage
• Components individually wrapped
The Model DCC Double Wall Stove Pipe is designed as the black connector pipe to link a wood stove and chimney system.

**Features**
- Professional market quality and design
- Stainless Steel inner liner
- Streamlined design
- Easy to assemble slip connection
- 6" clearance to combustibles
- 1/2" air space design
